

Panerai Radiomir Titanium Tourbillon GMT - 48mm (PAM00315)

Radiomir Titanium Tourbillon GMT - 48mm fitted with the P.2005 calibre, a hand-wound with a power reserve of 6 days, entirely designed and developed by Officine Panerai and fitted with one of the most exclusive of all technical specialities: the balance with tourbillon. In addition to the sophisticated tourbillon with power reserve indication, the Radiomir provides another very useful function; the second time zone, with indication of whether the time shown refers to the day or night.
