

**ARBUS
AR514BBB**

The shape of square watch case expresses the feeling of Men's masculine. The Arc Ion Plating on the black dual face with golden rose text fonts, creates a big ratio of color contrast. Besides, the meticulous gearwheels and components are exposed under the hollow dual face and transparent bottom cover can be clearly shown the operation of watch kits. Arbutus wrist watch evidently represents the style of simple, natural and fashion oriented to people eyes.

**BALL Watch
Trainmaster Celsius**

The Trainmaster Celsius is dedicated to Anders Celsius, the Swedish scientist who pioneered the world's most widely used temperature measurement scale in 1742. Trainmaster Celsius is equipped with the BALL 9018 caliber including the TMT mechanical thermometer module. This function, developed and patented by BALL Watch, measures the outside temperature between -35°C and 45°C. The thermometer readings are given in increments of 5°C in the half-moon shaped window at six o'clock on the dial. Limited to 310 pieces.
